WINDOW | DOOR | SLIDING | LIFT & SLIDE
| BI-FOLD |

Spectrum offers a wide range of window and door systems. Every unique wish can be fulfilled with different designs and sizes. The product range is rounded out with complete uPVC system. Spectrum is conceived and established by a team of professional who possess more than a decade of experience in innovative uPVC business. We have left footprints of success ever since the uPVC product came in existence in india. Our team is dedicated to assisting clients with their needs. With the ultimate goal of ensuring the products fit all of their specific requirements and expectations, we provide personalized services. Our technical collaboration with Deceuninck, Belgium, one of the leading manufacturers of uPVC profiles on planet, helps us face the challenges of the future with sincerity, confidence and transparency. This confidence inspires our team to assist customers in the best possible ways. Our dedicated team has worked passionately to build a reputation as the company delivering best quality products and flawless services over the years.

Whether you are new to the world of home decoration or a great enthusiast, we aim to keep you satisfied with your investment in our products. We value your trust and promise to give you happy memories with every purchase. We want to demystify the friendly, hassle-free buying experience from design to installation for all the clients to make them feel special and self-assured in choosing the right product with us.

Advantages & Qualities

Spectrum windows and doors systems

Weather Resistance

Spectrum's ongoing development of window technology gives you a long lasting quality product. A longer useful life means peace of mind and a great looking window that continues to improve the value of your biggest asset, your home. Extreme temperatures and severe weather exposure has no effect on doors and windows, continually performing perfectly in all conditions.

Maintenance Free

Spectrum windows and doors system do not require regular re-painting and expensive maintenance. They will not rot, warp nor corrode, even in tropical and salty coastal climates. Maintenance is simply a quick and easy clean and does not involve any further costs.

High Sound Insulation

In our busy lives, the hustle and bustle of every day living leaves us craving a little peace and quiet when we want it. Protection from noise is an important characteristic of a modern window, ensuring a comfortable life, both at home and in the office.

$$\begin{array}{r} 145 \\ - 234 \\ \hline \end{array}$$

Thermal Efficiency Insulation

At Spectrum, we've got you covered in all climates. From the hottest summers to the iciest winters, Spectrum windows and doors help you to enjoy a perfectly comfortable atmosphere in your home. Our design keeps you insulated from the outside temperatures, providing you the best available thermal performance possible today.

Termite Resistance

In many climates, timber windows and doors are often destroyed by termites, whereas Spectrum windows and doors systems are fully resistant to these pests, thanks to our scientifically developed compound technology.

Fire Safety

Fire tests have shown that materials are naturally flame retardant throughout their product life. They will not cause, support or enhance the development of accidental fire. Unlike timber windows, the profiles do not support combustion and are in fact self-extinguishing.

Maximum Water Tightness

Spectrum windows and doors systems have been successfully used in swimming pool facilities, marine and ocean environments without any detriment to its surface-finish or performance. Weather-tightness and its resistance to driving rain is one of the main assets of Spectrum windows and doors.

Material & Structural Performance

You are only as good as your track record. The longevity and superior quality of this material has been conclusively proved for over 40 years. Spectrum's material compound performs and exceeds worldwide standards for strength, durability, heat-stability, colour-retention, and termite-resistance.

Maximum Wind Resistance

Due to our high-quality material properties and gasket technology, Spectrum windows and doors are ideal for installation in seaside locations and areas with extreme wind exposure. Salty air, strong wind and extreme weathering has no effect on performance.

Window

Four Seasons Spectrum Tilt & Turn, Casement & Awning windows are a modern engineering marvel. Proof that even the most technical aspects of design can yield beautiful results.

User friendly, modern and secure

Windows are the face of your house; their design reflects your personality and delivers your style to the outside world. Not only do they brighten your day and allow in light, they cater to your well being by protecting you from undesirable weather and undesirable intruders. User friendliness should never be compromised so our innovative hardware technology provides your family the key to security and modern living.

Spectrum windows offer simplicity and delivers perfect harmony with both the architecture and the decoration of your house. Its warm and soft lines hint at the origins of a classical and modern style. Its tactile features achieve the aesthetic balance not only with its image, but also with the sense of strength it provides when you touch it.

The design of Spectrum windows has been distilled from continual product excellence. Our designers and engineers have made geometrical calculations of the frame, creating wonders of technology and success by increasing frame strength and visible light at the same time.

Harnessing the advantages of symmetric profile, Spectrum windows provide the same visible aesthetics both from the inside and the outside of your house. Open or closed; Spectrum windows will become part of your personal style.

Protection and Security

Your family is your world and protecting them is an instinctive part of our nature. The need for protection and security is part of our lives from a young age to adult hood. Protecting our material possessions is also important and feeling safe and secure in our homes is as simple as choosing the right doors and windows. Spectrum's high-security hardware and excellent frame strength gives you that peace of mind.

Door

Your new Spectrum door is much more than a beautifully designed portal to the outside world. It's also unequalled in strength, security and fully guaranteed to perform as well in years to come as it does today.

Are you on the
safe side?

It's up to you! The safety of your family is in your hands. Act now and take positive steps towards keeping them safe. Most burglars give up their attempt in under three minutes if they are faced with a solidly locked entrance. The Spectrum door has many obviously noticeable devices that are designed to immediately discourage any burglars.

Spectrum

- Solid and substantial hinges
- One - piece multi point locking system
- Effectively secured lock technology
- Security locking strikers
- Easy-to-use locking mechanisms with a key and/or lever operators.

Sliding

Effortlessly smooth-sliding and beautiful, our impressive sliding doors create a vast amount of unimaginable space and an inviting contemporary character.

Unlimited
opening width

Have as much light, air and freedom of movement as you wish. Spectrum sliding system open your rooms in a most elegant and efficient manner. Doors can be pushed aside very easily, creating ample space to move through and entertain during those special family occasions.

Spectrum Sliding Systems

Bring the outside in and create a wider opening with Spectrum sliding door.

- Opening width up to 6 m
- Up to 6 movable panels can be arranged in any desired combination
- Heavy duty ball-bearing roller provides smooth running and easy operation

Lift & Slide

Growing with the changing desires, demands and requirements.

Complete freedom of movement

Spectrum Lift & Slide System expands interior spaces and easily opens them to the outside world. It quickly integrates your interior space with its terrace, balcony or garden in an elegant and practical way, leaving a spectacular living and entertaining area.

Spectrum Lift & Slide System makes your spaces weather-proof, protecting you against the elements while forming a transparent wall with comfort and spaciousness. Providing elegance and an abundance of perceived space, its high-tech operating system enables you to move unusually wide doors easily, as if floating on air.

Technical Specifications

You can choose the number, dimension and function of each section based on your specific requirements. These systems are available as two, three or four parts or in a combination of fixed and movable parts, in white or other decorative colors.

Spectrum Lift & Slide can be applied with several glass thicknesses (maximum glass thickness is 38 mm). The system is highly-durable to hot or cold weather elements, rain, moisture and provides the best solutions for architectural projects requiring wide openings.

Bi - Fold

These elegant, concertina doors add a real “wow” factor to any home or premises, and seamlessly connect our outdoor and indoor spaces. Once folded back, they create a large opening for easy access. Particularly suited for new - build projects, these designer folding doors are becoming increasingly popular as property developers seek to differentiate their homes. Home owners too are increasingly demanding more sophisticated products.

Spectrum has carefully designed its bi-fold door system to offer smooth, simple functionality with a bottom or top rail concertina mechanism. The versatility of the Spectrum bi-fold door means that you can use it to create a glass wall up to an impressive 6 meters wide. As you would expect from the world leader in door systems.
